OBJECTIVE

Experienced software developer with a proven track record of delivering innovative, scalable, and efficient solutions. Recognized for driving efficiency, optimizing performance, and contributing to successful projects that align with organizational goals and foster growth.

EXPERIENCE

Sholas Technologies Private Limited   09/2024 - Present
Full Stack Developer

- Built and deployed dynamic web applications using Java, React.js, and Spring Boot, enhancing user experience and boosting client satisfaction.
- Automated complex business workflows with Camunda and SQL integration, reducing manual tasks and improving operational efficiency.

PROJECTS

ATOM2 – Business Website

- Designed a responsive, animated website using Bootstrap and JavaScript for seamless user interaction.
- Integrated a functional contact form and modern UI elements to enhance user experience.

Papex – AI-Powered Document Intelligence Platform

- Developed Spring Boot APIs for document upload, dynamic prompt generation, and PostgreSQL storage.
- Automated backend workflows to extract and structure data, improving document processing efficiency.

Expense Tracker Application – Personal Project

- Built a full-stack application with Spring Boot and React to track and categorize personal finances.
- Implemented RESTful APIs for data handling and integrated Chart.js to visualize spending patterns through interactive dashboards.

SKILLS

Languages	Java, Python
Front End	React.js, Tailwind CSS, Bootstrap, WordPress
Back End	Spring Boot, Node js
Database	PostgreSQL, MySQL
Tools	Camunda, Git, GitHub and MS Excel

COURSE
